-----------------	-----------

We use a multi-level system for our team of service providers. Our level system serves as a career path of growth and achievement for our team.

It also provides several options to accommodate the various needs of our guests. An artist's level of competency or creativity is not necessarily related to the years of experience that he or she has. We stand behind the quality provided by all service providers.

If you have any questions, please do not hesitate to ask our receptionist.
